

Arthur Capozzi

Postdoc, Data Science Lecturer @ETH, Zurich

I am a data enthusiast with a particular passion for complex networks and systems.

Work experience

present

↑
Jun 2024

Postdoc, Lecturer

ETH Zurich, COSS research group

I am currently a postdoc in COSS, research group led by Prof. Dirk Helbing, and a lecturer in the “Data Science in Techno-Socio-Economic Systems” course at ETH.

present

↑
Jul 2023

Founder of University spin-off

Turin

I co-founded **aequa-tech**, an innovative startup that aims to develop NLP, Machine Learning, and Complex Networks tools while respecting the issues of fairness and digital disparity. A few months after its foundation, aequa-tech has already obtained several hundred thousand euros from private investments and European tenders.

↑
Nov 2020

Phd Student in Computer Science

University of Turin, Department of Computer Science

I have participated in several research projects, both in academia and industry. I have collaborated and published with CENTAI Institute, AFC Digital Hub, and ISI Foundation. My research interests include the study of polarisation and balance in complex networks, fraud detection in weighted temporal transaction networks, and social media analysis and mining. I have supervised several Bachelor's and Master's theses in Computer Science, one Master's thesis in Stochastics and Data Science, and one thesis in Physics of the Complex Systems.

Nov 2020

↑
Sep 2019

Research fellowship at ISI Foundation

ISI Foundation, Turin

Lagrange applied research fellowship on social media analysis, data science, machine learning and NLP.

2022

↑
2018

Teaching Assistant of Web Technologies course

University of Turin, Department of Computer Science

My role was to follow and help the students to prepare for the exam. I also followed the correction of the students' exam projects.

Aug 2019

↑
Feb 2019

Research fellowship *Talenti Società Civile*

University of Turin, Department of Computer Science

I analysed the quality of life in Turin's neighbourhoods and how people's perceptions differ from the data. This project was funded by CRT Foundation.

Oct 2017

Research Scholarship

University of Turin, Department of Computer Science

I worked on a European project that aimed to monitor and analyse the spread of hate speech on social media in Italy.

Jul 2017
↑
Apr 2017

Thesis Stage

Innovation Center, Intesa Sanpaolo Bank, Turin

Working on a data visualization dashboard to analyze transaction data for anti-financial crime.

Education

2024
↑
2020

PhD in Computer Science

University of Turin, Department of Computer Science

2017
↑
2014

Master's Degree in Computer Science

University of Turin, Department of Computer Science

2013
↑
2009

Bachelor's Degree in Computer Science

*University of Perugia,
Department of Mathematics and Computer Science*

Publications awards

2025

Best Methods Awards at CSCW 2025

Narratives of war: Ukrainian memetic warfare on Twitter, Mejova, Yelena, Arthur Capozzi, Corrado Monti, and Gianmarco De Francisci Morales. Proceedings of the ACM on Human-Computer Interaction 9, no. 2 (2025): 1-28.

2021

Best paper at CHI 2021

Clandestino or Rifugiato? Anti-immigration Facebook Ad Targeting in Italy, Capozzi, Arthur, et al. Proceedings of the 2021 CHI Conference on Human Factors in Computing Systems. Have a look at the paper with the Dashboard I've developed: migration-ads-observatory.isi.it

2020

Best paper at SocInfo 2020

Facebook Ads: Politics of Migration in Italy, Capozzi, Arthur, et al. Social Informatics: 12th International Conference, SocInfo 2020, Pisa, Italy, October 6–9, 2020, Proceedings 12. Springer International Publishing.

Programming skills

Some of the framework and libraries I use most:

- Pandas, Polars, Numpy, Scikit-learn
- PyTorch, Keras, Ollama
- NetworkX, igraph
- Mathplotlib, Seaborn
- fastAPI, Django
- jQuery, d3.js, Angular, React

Other Notable Publications

- 2026 ● **Agentic Graph Retrieval-Augmented Generation for Auditable Commercial Registry Analysis,**
Capozzi, Arthur, and Helbing, Dirk (2026) IEEE Access.
- 2025 ● **Beyond the tax haven: a graph analysis of business attraction in Swiss municipalities,**
Capozzi, Arthur, et al. EPJ Data Science (2026).
- 2025 ● **Exploiting graph metrics to detect anomalies in cross-country money transfer temporal networks,**
Salvatore Vilella, et al. Companion Proceedings of the ACM Web Conference 2023.
- 2025 ● **Weirdnodes: centrality based anomaly detection on temporal networks for the anti-financial crime domain,**
Salvatore Vilella, et al. Applied Network Science 10.1 (2025): 14.
- 2025 ● **FlowSeries: flow analysis on financial networks,**
Capozzi, Arthur, et al. Applied Network Science 10.1, p. 28 (2025).
- 2025 ● **Narratives of war: Ukrainian memetic warfare on twitter,**
Mejova, Yelena, et al. In Proceedings of the ACM on Human-Computer Interaction 9.2, p. 1-28 (2025).
- 2023 ● **Analyzing and visualizing polarization and balance with signed networks: the US Congress case study,**
Capozzi, Arthur, et al. Journal of Complex Networks 11, no. 4 (2023).
- 2023 ● **The Thin Ideology of Populist Advertising on Facebook during the 2019 EU Elections,**
Capozzi, Arthur, et al. In Proceedings of the ACM Web Conference 2023 (pp. 2852-2862).
